

PROSPECTUS

Quality is Our Determination

Proposed Elevation of Jatindera Greenfield School

"Our approach is an exercise to excel, which would put all the human knowledge in a breathtaking new perspective"

JATINDERA GREENFIELD SCHOOL

IN THE REMEMBRANCE OF

Dew drops formed on every bough, refresh everyday the flower of my dream
And you'll wonder to know, I will be living after the death, all here in green.

Capt. Jatinder Singh

JGS AT GLANCE

- Fax : 01624-277145
- Academic Year : April to March
- Standard : Pre-nursery to 10+2 class
- Summer break : 35 days
- Autumn break : One week
- Winter break : One week

The Child, the book, the torch, the water and the sun are the symbols in the school logo, which in unity symbolize potential, knowledge, eternal light & excellence and sustenance of growth of morality,

The child with his unsurpassed potential seeks wisdom, essence of knowledge from the book, the silent mighty power. Books are standing counsellors, preachers, always at hand, always ready to repeat their lesson as after as we please

The eternal and glorious sun, the centre and soul of our solar system, from where the child lights his torch to enlighten the world and dispel the darkness of ignorance. Water symbolize purity, patience and peace in life.

The school motto "Victory with determination" written in golden letters inspires the child, unleashes the power within him to kindle the flame of wisdom and to make him stand to grab the victory with determination.

As Lincoln Said "Determine that things can and shall be done then we shall find the way."

MAY I HELP YOU

*Nothing great was ever achieved without enthusiasm-
Ralph Waldo Emerson. God created each of us for greatness.
JGS mission is to help the child to catch a glimpse of his/her
potential and inspire him/her for the excellence.*

It is imperative to appreciate that the innovative modes can formulate essential contributions to the solutions of problems in teaching but they cannot endow with inclusive solutions for most of the instructional problems. The ideas of selling big methodologies have been everywhere in air without turning them into practice. It depends on what are those ideas used for and how skilfully they are applied. Unfortunately the new ideas of using television and language laboratories are examples, have been oversold. The dedicated service of a teacher itself values more than any instructional aid. However, we are equipped with various kinds of teaching aid and media technologies. Computers and audio visual aids will be adequately used. The facility of media is not meant to fulfil the shortage of teachers, limitations of funds, and absence of adequate teaching space and other facilities. I look forward that a child at "Jatindera" must pick up a hobby, must go for trekking, excursions, river rafting, mountaineering, aeromodelling, para sailing and para gliding etc. I wish that a child with us must possess his or her a separate alumnus identity, once having passed out from the school. I do not believe in alluring the parents and the children with irrational promises. I ensure that the methodology to enhance a better academic goal for your child is not muffled under any circumstances.

Above all, I emphasize that a child should not grieve for his / her childhood. All children must get affection and care. At the same time, I individually feel that a child must nurture into a healthy, daring, obedient, knowledgeable, imaginative and a humble human being. I am always ready with a "get-up-and-go" spirit to sustain the institution as a temple of 'all round learning'.

Dr H.S. Dhaliwal
President

Quality is our determination

MY BELIEF AND VISION

*"Let noble thoughts come to us from all sides."
- Rig Veda -*

Picking up an appropriate school for a child has been a herculean task for all parents. One would appreciate to examine that the parents and the children both endure a painstaking exercise to get hands on admission in a school. We, at Jatindera look forward to reduce all hassles either for admissions or be the worries of child's homework. The process of learning must remain full of brio among the children. We have well-mechanised academic tools to suit the particular age of a child. Above all, it's an ideology to conceive a resolution that vitally affects the child's future.

Jatindera Greenfield School is an endeavour to institute a new drift in education. Ideologically, the school is aimed to focus the optimum growth of a child during his / her tenure in the school.

We substantiate an accepted environment on the campus that would facilitate generating a congenial learning environment. I wish for a stoke of luck to my staff and students in their endeavour to sustain my thoughts and vision intact.

Mrs. Manpreet Kaur Dhaliwal
Manager

Quality is our determination

FROM THE PRINCIPAL'S DESK

To soar to the heights, the soul needs two wings. One is purity of thoughts, which enables us to keep our eyes on the one target in life that matters and aware of the divinity within every human being. The other is simplicity of life style, also simplicity in our desires.

Education in any form empowers us with these wings. Fortunately we in Jatindera Greenfield school equipped with various kinds of educational teaching aids and smart class technologies. Computers, audiovisual-aids and smart class technology are being used and playing remarkable role in improving the performance of child.

I personally do consider and take care of every child's sensitivities. At the same time I perceive that there is no better testimony than the knowledge of his/her own student. Every teacher of JGS helps a child to be sensitive to the values well laid by our national, social & spiritual heroes.

Above all I feel every child is a nation builder, I salute his/her spirit, stamina and strength. A part from giving him good education, I am committed passionately to train my children to face the outer world and to instill in them a life of simplicity and piety of service and meditation, of hard work and devotion, of humility and intellect, of courage and conviction, of peace and universal brotherhood, of love and compassion. So that they can fit themselves in turmoil of future and in the rapidly changing world.

OUR STAFF

The school maintains a graciously stimulated, knowledgeable, competent and vigorous team of teachers. The entire faculty members are significant in their opinion of retaining an enhanced academic standard among its students. Simultaneously, they believe that games fascinate children. Many children may not be well versed at studies but they are quite at home in the games in which they take interest. Teachers on the campus will lend a hand to the cause of education by motivating students. The teacher would also develop some games pertaining to the content they communicate. A little thinking will enable them to evolve a game for the topic they want to teach. All our staff is to undergo grooming classes to be conducted by the Principal and the educational resource persons brought from the institutions of repute. The Principal while leading the academic team emphasizes on the latest academic techniques for the younger children such as LSS (Labelling Sequential Steps), CFG (Conceit Forming Games), AG (Additive games), IG (Inferential game), Basket exercises, Brain storming, etc. Above all, our team of staff is well represented by the Principal and they are well equipped to sustain the slogan of the school –

“VICTORY WITH DETERMINATION”.

METHODOLOGY

Teachers work according to a scheme of work planned at the beginning of the year, which is translated into practice on the daily basis. The child is assessed through a comprehensive evaluation system that takes on account not only his / her academic performance but also his / her growth in areas of culture and extra curricular activities. A test to assess the child's progress is held at the end of each term and the report is sent to the parents. Periodic meetings between teachers and parents take place so that both collectively participate in the progress of the child.

Class room work lays stress on participation and arousing curiosity with emphasis on group learning, peer help and use of electronic and audio – visual aids. Homework is given according to a carefully set scheme of education. Children do homework under the supervision of Master / Mistress on duty.

The aim of the whole system is not to judge the child but to provide aid and support to his all – round development and get him to give out his / her best.

ACADEMICS

Jatindera Greenfield School, an English medium co – educational school is affiliated to Central Board of Secondary Education (CBSE), New Delhi. Punjabi and Hindi are taught consistently under the three language scheme. Learning at this school is not limited to books and classrooms. Academic work is aimed at developing young minds, chisel their intellect and grasping ability and encourage practical application of knowledge. The knowledge of computer is an integral part of instruction. Students are urged to become proverbial and proficient in computers and computer aided learning. Stress is laid on the interaction of students with the best minds in the country. Informal interactive learning is imparted through educational tours to places of historical, geographical and scientific interest both within and outside the state.

SPORTS

Healthy mind lives in healthy body. Education is for mind development & sports is for physical development. It gives qualities like team spirit, confidence, leadership. We have play grounds for Football, Badminton, Volleyball, Hand Ball, Cricket and athletic track, which helps child to develop physically. For mind driver we have chess. Three qualified teachers have an eye on students physical growth. Our school organises athletic meet every year.

CO-CURRICULAR ACTIVITIES

Our School develops its students in co-curricular activities like declamation debate, quiz, news reading, western and folk dances and singing, extempore, calligraphy, poem recitation, etc.

ART AND CRAFT

Education to develop the skills hidden in students, Art & Craft is introduced in the school. It includes painting, knitting, emboss painting, best out of waste etc.

FACILITIES & SCHOLASTIC APPROACH

The school is spread over an area of five acres amid a lush green picturesque surrounding, away from the hustle and bustle of the city life. The school is located on the 25 Km stone on Ludhiana – Bathinda road at Gurusar Sudhar, district –Ludhiana. It is proposed to expand the school in an area of 20 acres in the days to come. The school has a magnificent structure set in open field with a pollution free environment. The school campus is dotted with lawns, parks and huge open spaces. The campus is crisscrossed with a network of metalled roads. The school has spacious classrooms, which are well lit, ventilated and of appropriate size. They are appropriate to generate a desired learning environment. The building of the school has been designed to facilitate liberal teaching methods, accommodate changes and different types of functions on latest scientific lines.

FACILITIES

CLINIC

A three-bed clinic has been built in the school campus. Services of a part time doctor will be made available to provide first aid to the students as and when needed. Periodic medical check up of the students will also be conducted.

CANTEEN

A well-furnished canteen is available in the school campus. Efforts are being made to regulate supply of quality eatables through the canteen at reasonable rates.

FILTERED AND COLD DRINKING WATER

Filtered drinking water is provided in the school campus. Cold drinking water through water coolers is provided in the school campus during summer season. To meet the requirement adequate number of cooling and filter devices are installed.

GENERATOR

To take care of electricity failure / cuts, a generator of 62.5KvA capacity has been installed so that the studies and other activities of the students do not suffer. There is a provision of one 15KvA stand by generator too.

PARKING PLACE

Separate parking place for vehicles of staff, student and visitors is provided.

TRANSPORT

The School has own fleet of buses covering the area about 25 km for transportation of students.

LABORATORIES

Separate Labs of Physics, Chemistry & Biology, Social Science, Maths, Computer and language lab have been established, where the sophisticated and high tech equipments / instruments are installed to make learning easier and up to date.

EDUCATIONAL MEDIA / TECHNOLOGY

The field of media, instructional system and technology of teaching has been enlarged greatly and is expanding rapidly. All innovative programmes and techniques of teaching like computer based or computer assistant instruction; system approaches and closed circuit television cameras are fitted in each classroom.

SMART CLASS TECHNOLOGY

We are glad to announce that Jatindera Greenfield School is the first school of the area which is equipped with the state-of-art “Smart Class” system of teaching technique. With the introduction of this technology JGS has joined the rank of selected schools in India. The “Smart Class” is a comprehensive technology solution that is transforming the way teachers teach in classrooms across the globe today. The “Smart Class” program empowers teachers to use digital resources such as graphics, animations, 3D Images and video clips, in addition to the chalk and talk methods of teaching in their day to day teaching. Such exposure results in a completely new multi sensory learning experience for students and helps them to improve their academic performance.

SERVER ROOM

A server room has also been established in the school which enables the teachers and students to get course contents fully syllabus covered in class. On line and e-mail identity has been issued to each student and teacher by which they are able to get all the teaching material on line and they can interact each other.

EDUCATION EXCHANGE PROGRAMME

After lots of research and evaluation, University of Sussex, United Kingdom selected Jatindera Green Field for their exchange programme. Their representative Dr. Kaveri Harriss personally visited and tried to study the aspects of teaching standards at the school and was totally pleased with all the proceeding.

COUNSELLING CELL

Parents are invited to school on various occasions to discuss problems of their wards. Counselling of both parents and students by different professionals are also arranged time to time.

STUDENT COUNSELLING PROGRAMMES

Each pupil is unique. He/She faces his/her peculiar problems of growth and adjustment beyond his unaided capacity. These problems can be educational, vocational and personal. We conduct various 'students' counselling programmes in order to provide guidance and counselling to the students to improve their decision skills for the prospects. For this, subject experts and counsellors are invited to interact with children to free the counselees from the forces that are impending his/her growth to full maturity and to develop his/her self understanding.

TEACHER WORKSHOPS

The education policy, methodology and techniques even courses and syllabus are fast changing Hence to update their knowledge the teachers need regular orientation. Several such workshops and seminars are conducted in the school. The teachers are also deputed to attend workshops/seminars conducted by different educational organisations at different venues, where they are made aware of new teaching techniques, methodology, projects, co-curricular activities, course & syllabus and value oriented education programmes, etc.

NCC

For harmonious development of our students. They participated in RDC & ADC Camps in which our students got first position in firing and drilling.

COMPUTER LAB

Learning by use of computers is becoming indispensable for day-to-day work and jobs. These computers are good tools of learning and recreation. Keeping this in view, a well equipped net work of computer lab has been set up. Multimedia facilities on modern techniques of learning are also available.

LEARNING RESOURCE CENTRE

"A good book is the best of friends, the same today and forever". The "Learning Resource Centre" is the hub of all intellectual and academic activities of the school. The school library has a large pool of resources in the field of information technology, Science, General Knowledge, the Periodicals, Journals & Reference books, which keep the students' knowledge up-to date with the latest. Religious books are also part of our library collection for including the feeling of brotherhood & secularism amongst them.

MEDITATION CLASSES

Professionals are invited to give a brief feel of meditation to students so as to improve their inner strength and to excel in everything they undergo in a better & mindful way.

NIGHT CLASSES

School arranges night classes for students with accommodation facility, especially for slow learners and Board class students.
